Subject: NJinPAS 'Pesticide Use' Webpage Updated With Use Maps

Courtesy of Curtis Brown of the New Jersey Department of Environmental Protection

---

The Rutgers Cooperative Extension Pest Management Office has just updated its NJinPAS 'Pesticide Use' webpage with **10 agricultural and commercial (lawn care and golf course) pesticide use survey data maps** produced by the New Jersey Department of Environmental Protection. Each map depicts pesticide use by watershed. See http://www.pestmanagement.rutgers.edu/NJinPAS/pesticidesurveys.htm.

This web page provides previously published reports of surveys and analyses of agricultural and commercial pest management practices, including pesticide use. The surveys were either singly or jointly published by the New Jersey Department of Environmental Protection Pesticide Control Program and/or Rutgers Cooperative Extension. Corresponding maps developed by the NJDEP are listed separately for agricultural and commercial pesticide use. Thus, there are four sections of information:

1. **Agricultural Surveys**
2. **Agricultural Pesticide Use Survey Maps**
3. **Commercial Surveys**
4. **Commercial Pesticide Use Survey Maps**
