Subject: University School IPM CD Rom Now Available

Courtesy of Thomas Fasulo, University of Florida Extension Entomologist; posted 4/8/03 to University of Florida School IPM listserv.

For direct access to cited information go to http://schoolipm.ifas.ufl.edu/cdrom.html.

The National School IPM Web site is now available complete on a CD-ROM for use in stand-alone or networking environments for both PCs and Macs. It requires a CD-ROM drive and graphical browser. While it may be used off line, it also contains all the hot links that the Web site does, as well as a link to the School IPM Web site itself.

The cost of the CD is $8. Free copies will be mailed to all state and US territory IPM coordinators and school IPM coordinators later this month.

The School IPM Web site (http://schoolipm.ifas.ufl.edu/) contains more information on the CD, as well as a link to the UF/IFAS Extension Bookstore where copies may be purchased. A toll free number is also included.
