Subject: Fludioxonil Emergency Exemption & Tolerance Reestablishment

Posting to NJinPAS Fruit:

EPA has authorized under FIFRA section 18 the use of **fludioxonil on apricots, nectarines, peaches, and plums for control of brown rot, gray mold rot, and Rhizopus rot** in Alabama, California, Georgia, **New Jersey**, Oregon, and South Carolina. This regulation extends time-limited tolerances for residues of the fungicide fludioxonil 4-(2,2-difluoro-1,3-benzodioxol-4-yl)-1H-pyrrole-3-carbonitrile in or on apricots, nectarines, peaches, and plums at 5.0ppm for an additional 2-year period. These **tolerances will expire and are revoked on December 31, 2003**. Time-limited tolerances were originally published in the Federal Register on June 24, 1998 (63 FR34304) (FRL-5797-5).

EPA provides: *This action is in response to EPA's granting of an emergency exemption under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) authorizing use of the pesticide on apricots, nectarines, peaches, and plums . Section 408(l)(6) of the Federal Food, Drug, and Cosmetic Act (FFDCA) requires EPA to establish a time-limited tolerance or exemption from the requirement for a tolerance for pesticide chemical residues in food that will result from the use of a pesticide under an emergency exemption granted by EPA under section 18 of FIFRA.*
