Subject: Son of Certification

Rutgers Cooperative Extension Pest Management Office's 'Core and On-the-Job Pesticide Applicator Training' webpage now includes a current listing of the newly regulated NJDEP-approved ~~certification~~ training courses scheduled.

This webpage <http://www.pestmanagement.rutgers.edu/PAT/coreandOTJtraining.htm> includes:

- a general discussion of applicator versus operator training requirements;
- the prescribed content for CORE and Operator training;
- a current listing of available NJDEP-approved certification courses; and
- the minimum number of applications required by category to be completed during on-the-job training.

Some days you just can't win...mea culpa.
