Subject: New Listserv

I'm pleased to announce the creation of the **NJ Information Network for Pesticides & Alternative Strategies (NJinPAS)**. A brief summary of the purpose, goals, and objectives of NJinPAS is attached.

Since one of the key objectives of the NJinPAS is expedited delivery of pesticide-related information to New Jersey stakeholders, we have set up an initial email listserv and mailing infrastructure. This **Network** includes growers, crop consultants, pesticide users, public interest groups, environmental groups, and Extension faculty and staff. As a participant in the NJinPAS Network, you will receive general announcements (like this one) via this existing NJinPAS Network listserv.

We would like to minimize mass mailings by making available six additional listserv subgroups that would be used for more specific distribution, including regulation notices or pesticide advisories. The six separate **listserv categories for open enrollment** are:

1. NJinPAS Institutions & Interiors;
2. NJinPAS Mosquito;
3. NJinPAS Fruit;
4. NJinPAS Turf, Ornamentals, Greenhouse, & Nursery;
5. NJinPAS Field & Forage Crops; and
6. NJinPAS Vegetables

You may enroll in as many of the 6 subgroup listservs as you determine appropriate. To enroll, send an email to Patricia Hastings at hastings@aesop.rutgers.edu, or call her at 732-932-4271 or 732-932-9801. Also, you may contact her to be removed from the Network listserv.

Thank you.
