Subject: Open Comment Periods for Risk Assessments of 2 Pesticides

Below please find a summary of documents that the EPA Office of Pesticide Programs has **open for comment from the public that NJinPAS has not previously posted**. Hyperlinks to the original documents are provided. If you have interest in these issues, or would like information on how to comment, please contact me for the individual notices of availability as posted in the Federal Register.

Open Comment Periods

1. Lindane Revised Risk Assessments (closes 4-01-02)
<http://www.epa.gov/pesticides/reregistration/lindane/>. Lindane is an insecticide registered for use as an agriculture pre-plant seed treatment on six crops. One proposed new crop also is being considered for addition to the label: canola seed treatment.
2. Oxyfluorfen Risk Assessments (closes 4/01/02)
